 - 2. The purchase of the employee's **principal residence**, excluding mortgage payments.

- 5. To pay **burial or funeral expenses** for the employee's deceased parent, spouse, or other dependent, including travel to the funeral.
- 6. To pay expenses relating to the repair or damage to the employee's principal residence that would qualify for the **casualty deduction** (i.e., damage caused by catastrophic events such as floods, hurricanes, or tornados). The damage must be from an event that is sudden, unexpected, or unusual. Damages resulting from progressive deterioration, normal wear and tear, normal weather conditions, or pest infestation are not considered casualty losses.
- 7. Expenses or losses incurred by the employee on account of a **disaster declared by FEMA**.

In-Service Withdrawals – Hardship Withdrawals

- Employee must need the hardship withdrawal to pay these expenses directly; the IRS specifically prohibits using a hardship withdrawal to repay credit card debt or loans previously incurred to meet these expenses.
- **Supporting documentation** must be provided to substantiate hardship distribution requests.

- **Qualified Domestic Relations Orders (QDROS)** – If a participant is divorced they should contact Empower for the QDRO template needed to divide their account.

Separation From Service Withdrawals

- Upon Retirement or termination of denominational employment, an employee may take a total or partial distribution from all accounts in the Adventist Retirement Plan.
- There is a **45 day hold** on Separation From Service Withdrawals from the termination or retirement date.
- A Separation From Service Withdrawal form can be used if the employee is not working for any denominational employer. **If a retired employee comes back to work part-time they will need to request an In-Service Withdrawal Form.**
- Upon reaching age 73 participants are generally required by the IRS to begin taking required minimum distributions (RMDs) from the Plan annually.

Separation From Service Withdrawals

- Methods of Distribution – Lump Sum, Installment Payments, Annuity (SecureFoundation II)
- Note: Retired Pastors may **preserve parsonage allowance** treatment for either lump sum or installment payment distributions when their retirement funds remain with Empower.
- Terminated or retired employee with an account balance of at least \$5,000 are not required to withdraw or transfer funds and may leave them in the Plan. Terminated employees cannot contribute to the Plan other than through transfers or rollovers from other plans.

Separation From Service Withdrawals

- **Disability Distributions** – An employee who is disabled before reaching 59½ and who is: Eligible for disability from a participating employer's long-term disability insurance plan or Determined to be disabled using the Social Security definition of disabled may receive a distribution from his/her entire account balance.

When the employee again retires or separates from service, he/she can choose to receive a distribution of the entire account balance, including any contributions made during re-employment, or may resume installment payments.

Error Correction Using EPCRS

- All errors must be corrected following the guidance described in the Internal Revenue Service's Employment Plans Compliance Resolution System (EPCRS)
- **EPCRS** – Offers three programs for correcting plan errors:
 - Self-Correction Program (SCP), Voluntary Correction Program (VCP), Audit Closing Agreement Program (Audit CAP)

Self Correction Program (SCP) – Employers can self-correct eligible retirement plan errors without contacting the IRS or paying a fee. Employers can self-correct an **insignificant operational error** at any time to preserve the tax-favored status of the Plan.

An operational error occurs when employers do not follow the written terms of the Plan. Eligible operational failures include failure to follow the terms of the Plan, excluding eligible participants, not making contributions promised under the Plan terms and certain loan failures.

Error Correction Using EPCRS – SCP Continued

- Significant and Insignificant failures – An insignificant operational failure can be self-corrected at any time. Employers must self-correct a significant failure within a certain timeframe.
- Significant is determined based on the facts and circumstances. No single factor is determinative. Failures are not significant just because they occur in more than one year. Factors to consider include:
 - other failures in the same period (not how many people are affected)
 - Percentage of plan assets and contributions involved
 - Number of years it occurred
 - Participants affected relative to the total number in the plan
 - Participants affected relative to how many could have been affected
 - Whether correction was made soon after discovery
 - Reason for failure

Error Correction Using EPCRS – VCP and Audit CAP

- VCP – Voluntary Correction Program – Correction through VCP preserves the Plan’s tax-favored status.
- Reasons for using VCP – Some failures are not eligible for SCP, Employers may prefer the comfort of a **written IRS approval** even for failures that are eligible for SCP, and Certain federal income excise tax relief is available under VCP that is not available under the SCP. Please see page 41-41 for more on VCP
- **Audit Closing Agreement Program (Audit CAP)** – An employer that does not come forward to the IRS, but whose Plan has significant problems that are discovered by the IRS during an audit is entitled under the audit correction program to preserve the tax benefits associated with properly maintained retirement plan. Please see page 42-43 for more on Audit CAP

EPCRS – SCP – Missed Contributions

- If employee contributions were missed in error, follow the steps below.
- 1. Submit a Make-Up Contributions Form as an Excel File. Follow the instructions on the form. <https://www.adventistretirement.org/wp-content/uploads/2020/03/Make-Up-Contributions-2018.xlsx>
- 2. Once Adventist Retirement receives the form we will notify you to send the contributions in a **File and Fund the file**.
- 3. We will send the File/Funds/Form to Empower so they can calculate **missed earnings** on the contributions.
- 4. ARP will notify you to **send additional** File/Funds for any missed earnings.
- 5. Send the additional File/Funds for missed earnings as instructed.

EPCRS – SCP – Missed Contributions - Continued

- Overpaid contributions can only be corrected within **12 months** of the contribution pay date.
- Overpaid **employee** contributions Due to an **incorrect status/benefits** will be returned to the employee directly.
- Overpaid **employee** contributions (Pre-Tax, Roth, After-Tax) Due to a **Voided Check** will be returned to the Employer.
